2024

FINLAND

**Rifle World Shoot
Oulu, Finland, 2024**

**Welcome Address from the IPSC President Mr.
Vitaly Kryuchin**

3.7.2024

Dear Athletes and Friends,
On behalf of the International Practical Shooting Confederation, I would like to welcome and extend my warm greetings to all the participants of the third rifle world shoot in IPSC history – 2024 IPSC Rifle World Shoot III, which will be held from August 4 to August 9, 2024, in the largest first-class shooting sports center Ruutikangas, 36 km distance from city of Oulu, Finland. Match host IPSC Finland, together with the Finnish Shooting Association and Ruutikangas Shooting Centre, did a great effort and brilliant work to welcome IPSC Athletes from around the World to compete in Oulu for the right to challenge the World Champions Titles. 30 IPSC Stages, 5 days of shooting, 500+ Rounds and over 600 IPSC competitors from around the world are warmly welcomed at the IPSC RWS III. This rifle match is unique in nature and definitely will be one of the most memorable IPSC matches of this year.

The best of the best will challenge for the World Champion Titles in their respective divisions. Participation in the World Shoot is a great honor for every IPSC Athlete and speaks of their great sports mastership.

For many athletes, it is a dream and purpose of life to join the elite of IPSC World Champions. Each of you has earned this right in the wake of a protracted and stubborn struggle phased over many hard stages, everyday training and self-development.

I am confident that the competition will be tense but exciting.

Dear athletes, remember that we are role models of safe gun handling behavior for the whole shooting world. Make us proud of your achievements and your conduct.

I wish all Athletes good luck. Let the best win.

All the best,

DVC!

Vitaly Kryuchin
IPSC President

The Finnish Shooting Sports Federation proudly carries on its more than 100-year-old tradition. Part of its national heritage is the fact that it has managed to unite under its umbrella nine different shooting disciplines, all of which have international competition. The fact that we are stronger as a federation and that we can make our sport more visible in the social debate balances the different interests of the different disciplines. Our athletes are also doing very well - with a total of 59 medals in 2023 at international championships.

One of the main tasks of the Federation is to create the conditions for active shooting practice. This training requires its own venues, i.e. shooting ranges, the number of which has unfortunately decreased significantly in Finland over the past decades. The Federation has therefore invested heavily in supporting shooting clubs in matters relating to ranges. The current Finnish Government has also stated in its programme that the number of shooting ranges in Finland must be increased significantly. For these reasons, it is therefore particularly pleasing to welcome all competition teams to the strongly developing Ruutikangas shooting sports centre.

Finnish Shooting Sports Federation
President
Vesa Nissinen

AMMUNITION FOR WINNERS

4 LETTERS 4 ACTION

The fact that the traditional German ammunition brand GECO and the comparatively young world umbrella organisation „International Practical Shooting Confederation“ (IPSC) go well together is not only due to the four-letter abbreviation.

The innovative and globally successful GECO brand offers a broad portfolio of cartridges for sporting pistols & revolvers, rifles and shotguns, all of which are carefully tailored to the special requirements of dynamic IPSC disciplines.

The absolute performance guarantee for your outstanding sporting actions.

Dear competitors, friends,

IPSC Region Finland warmly welcomes you to Finland! We have been a member of IPSC since the late 1980s, and gradually our sport has developed into one of the great shooting sports in the country. Its popularity is the result of decades of diligent work.

The project to build this year's competition venue, the Ruutikangas shooting centre, started back in 2014. It, too, is the fruit of hard work by volunteers, done to benefit both practical shooting and shooting sports in general.

To finally be granted a world championship competition by IPSC is a great honour for us in Finland and we thank IPSC for their trust in us. And what better competition to be granted than the World Shoot in rifle! We Finns have had a fair bit of success in this particular weapon.

We believe that even though the Ruutikangas shooting centre won't be quite finished, you will see and get to experience its potential, both for IPSC and shooting sports in general. We hope to see you here again and again!

Let us enjoy the competition! On August 10 we will see if we Finns can still say that "rifle is our game"...

Petteri Aro

Match director

It is with great pleasure on behalf of the International Range Officers Association and the National Range Officers Institute, in welcoming all the athletes to the IPSC World Rifle Shoot in Finland.

During this week you will be exposed to 30 challenging stages designed by your host. These stages will be Officiated with International and National Range Officers that will help you make this event a unforgettable experience with lots of good memories. Your Range Master is mark Weisinger and his Deputy Range master Riku Kalinen, they will be on hand to assist you in any way possible. If there is anything IROA can provide to make this gathering memorable, please feel free to talk to us during this World Shoot.

On behalf of myself and the International Range Officers Association we wish you all Athletes best of luck and most of all be safe and have fun.

Dino Evangelinos
IROA President

K18i-2
The Match Winner – with 50 m FOV

With 50 m field of view, the K18i-2 sets new standards for IPSC and 3-Gun matches. It comes with match proven features like 8x zoom, an extra bright illuminated 3GR reticle with unique MAX LIGHT function and an individually adjustable lever.

Unique
Extended power setting for
extreme backlight situations

OFFICIAL PARTNER

kahles.at

Stage 30 (Rifle 600 m range)

Stage type	Medium Course
Targets	10 IPSC targets
Minimum number of rounds	20 (SAO, SAS, MAC); 10 (MAB)
Distance	280-330 meters
Rifle ready condition	Option 1
Start position	Anywhere in the designated area as demonstrated.
Competitor ready condition	Rule 8.2.2 (Appendix E1)
Rifle position at start (Other than normal)	
Time starts	On audible signal
Procedure	After the start signal, engage all targets.
Safety angles	90 degrees
